Sprout[®]
an LED ecosystem

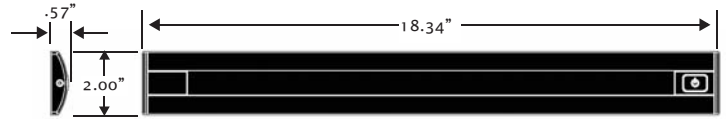

Reed is a low profile, LED linear solution for overhead bins and shelves. Reed can be used singly, connected together, and as a component with the entire Sprout[®] LED ecosystem. Reed utilizes energy-efficient LED technology. With multiple mounting options, consider Reed for all your application needs.

Reed

19 inch SRD LED task light

SRD LED task light includes:

- 3 sets of 1, 2, or 3 LEDs (5, 10, or 15 fixture watts)
- Color temperature 3500K, CRI 80
- 15 Watt wall transformer power supply with a 9' black cord, molded straight plug
- Switch - instant on; fade to off
- Metal trough reflector with diffuser lens
- Magnetic or screw mount option - must specify
- Clear anodized aluminum with flint color end-caps
- Dimming: holding on/off switch to cycle from 100% to 15% and back, release to achieve desired state. On/Off cycle returns to last state.
- UL / CUL listed
- California Title 24 compliant
- Made in USA

SRD - additional options

- Direct connect (DC) cords to link reed fixtures - 8", 30", and 54" available
- End caps for cord management - case goods application

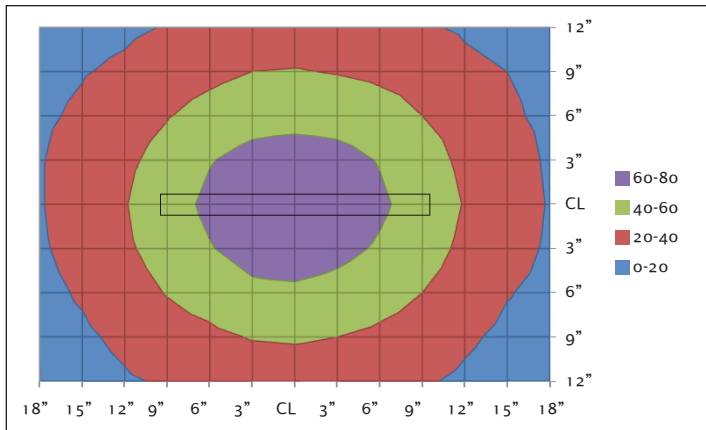

Photometry

Performance test installation data:

model number	SRD 19-10W
Fixture wattage, Color, CRI	10 watts; 3500K; 80
LED wattage, system wattage	6.5 watts; 11.8 watts (incl ps & fixture)
lens	metal trough reflector with diffuser lens
measured plane	18" length x 12" wide
face of light to work surface	18"

System accumulative wattage powered by one power supply must not exceed the power supply rated wattage.

Material recyclability:

product content:

plastic	7%
aluminum	77%
steel	1%
iron	0%
electronics	15%
non-recyclable	0%

Note: Non-recyclable materials may contain plastic, steel, aluminum or copper, but cannot be properly recycled.

Warranty

Reed SRD LED task light, less power supply, is warranted for three years from the date of manufacture. Power supply is warranted for one year from date of manufacture.
